

# Management

## *Associate in Applied Science*

The Associate in Applied Science degree curriculum with a Major in Management is designed for persons who are seeking full-time employment in management immediately upon completion of the community college curriculum. Both persons who are seeking their first employment in

management positions and those presently in management who are seeking a promotion may benefit from this curriculum.

Occupations in the field of Management include: management trainee, supervisor, department head, office manager, manager of small business, branch manager, and administrative assistant.

The first two semesters of the Management program are similar to other curriculums in business. However, in the second year each student will pursue courses in Management. The curriculum will include theoretical concepts and practical applications needed for future success in Management.
