

Choices for Sustainable Living

This course explores what sustainability looks like in our homes and community. With the many global challenges we face, traditional skills and frugal living are essential. Energy conservation, gardening, food storage and preservation, urban homesteading, community solutions, permaculture and whatever else comes up are the topics. Bring your ideas and energy to meet the challenges we all face. The class will be taught by Vicky Peterson.

When: Tuesday, February 2 & 9
Where: CVCC, Merritt Hall, Room 5137
Time: 7:00 pm – 9:00 pm
Cost: \$79.00 per person

Pre-registration and payment is required ~ deadline is one week before start of class.
